

## Vision

A world where young people can have hope for a bright future regardless of their background.

## Mission

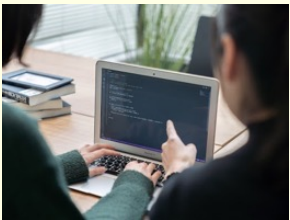

Deliver self-running support through programming to high school students with difficulties throughout Japan

## What we do

We help underprivileged high school students become self-reliant by supporting IT and career education.

IT education  
Career education

Skills high school students can acquire

IT Skill

Self-esteem

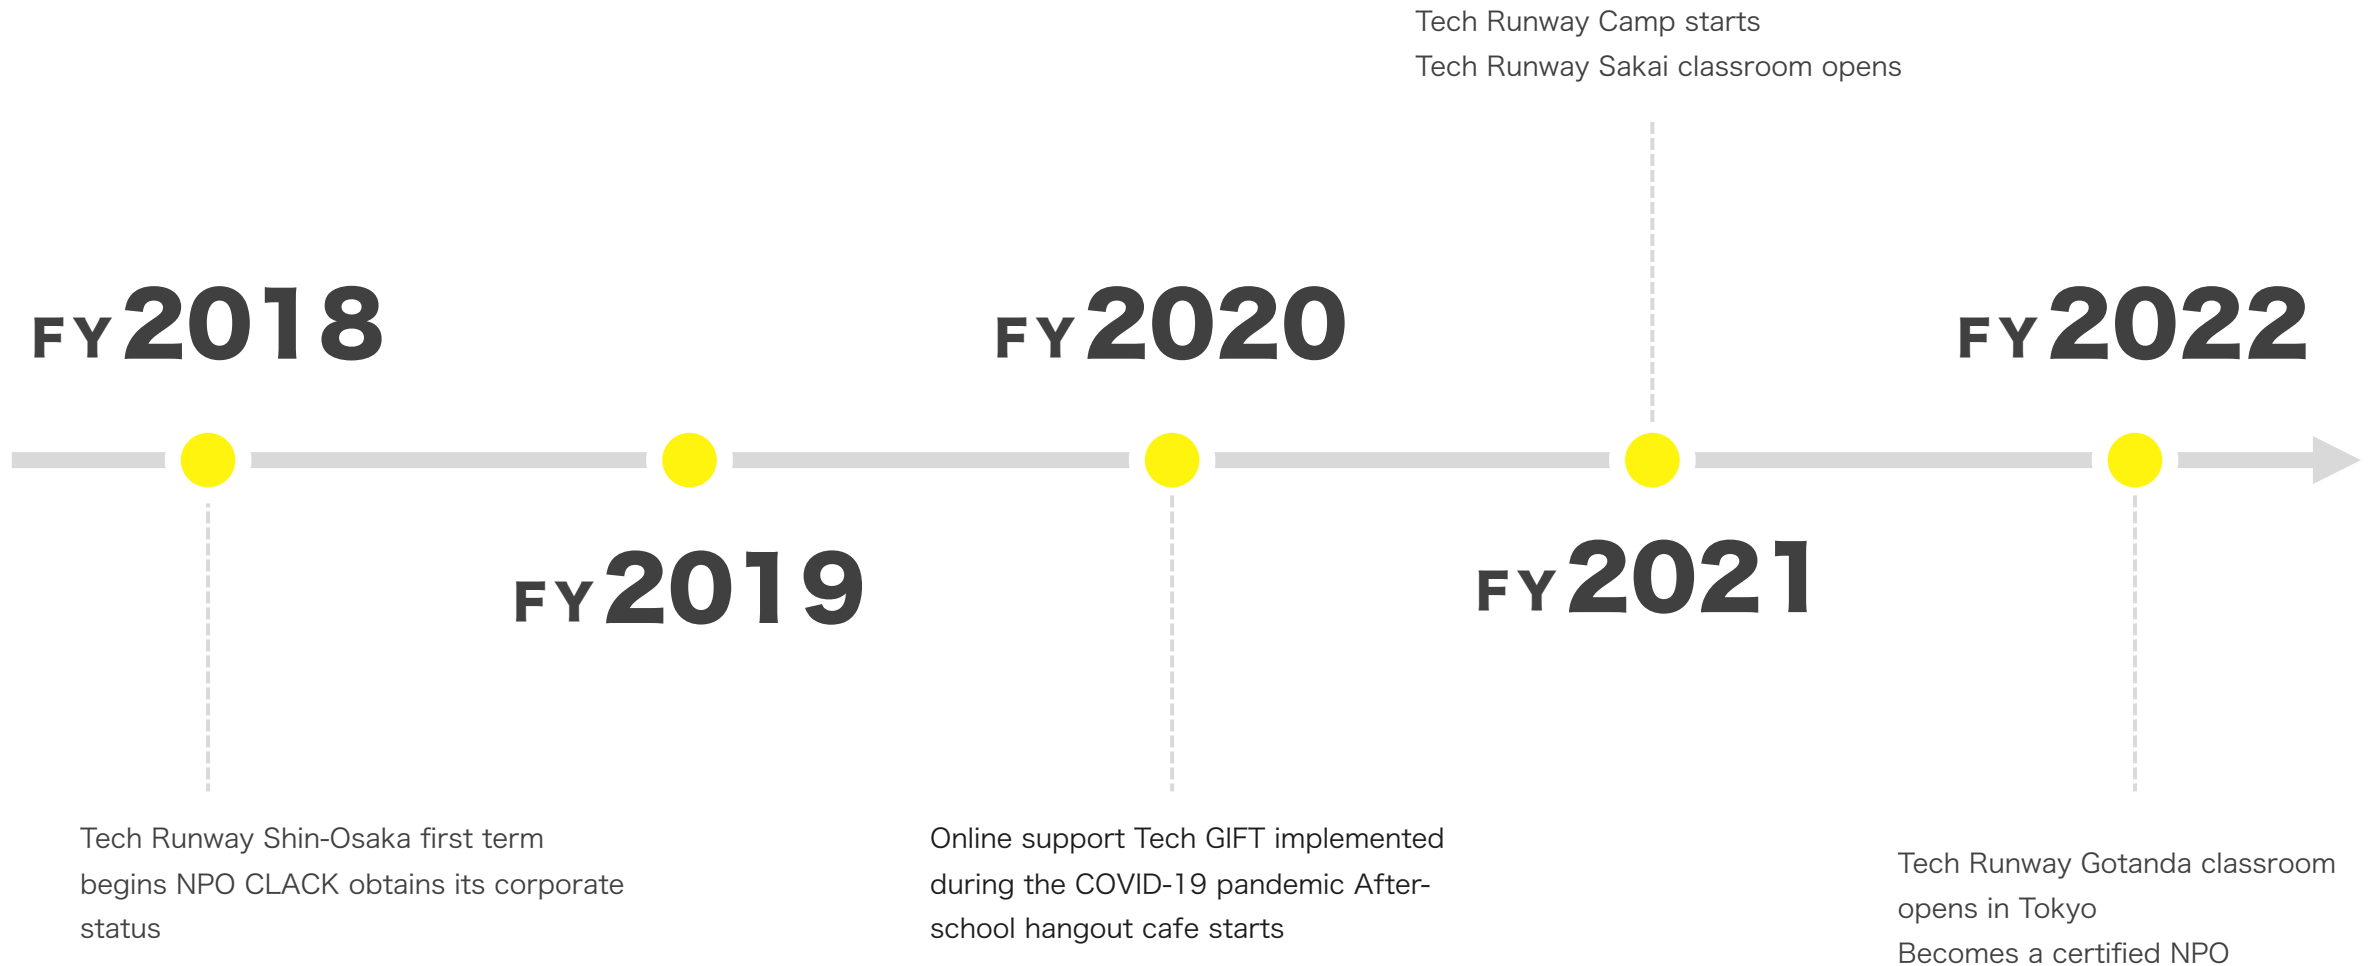

Learning  
motivation

Problem-solving  
ability

High school students who received support from CLACK become relatable role models for middle and high school students in similar situations by sharing their experiences and conducting workshops at their own alma maters.

# Our History

# About our Program

3 months of  
programming learning  
support

**Over 350**

## Branch list

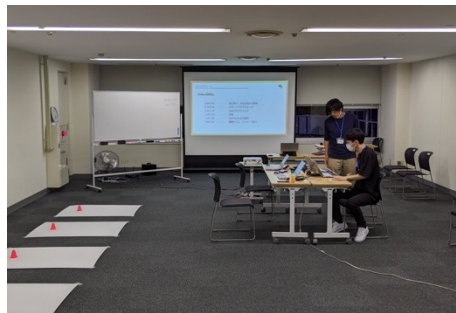

Shin-Osaka branch

Sakai branch (Osaka)

Gotanda branch (Tokyo)

Kyobashi branchi (Osaka)

## About our chairman

**NPO CLACK Chairman  
Daiki Hirai**

He was born in Yodogawa-ku, Osaka City and is 27 years old.

When he was in second year of junior high school, his parents' business went bankrupt, and his family was separated due to divorce.

He felt the disparity in education between schools and worked part-time jobs to support himself and pay for his education during high school.

He enrolled in the Engineering Department at Osaka Prefecture University with the goal of doing something to help children from similar backgrounds.

He became involved in providing educational support to children from impoverished families.

Eventually, he founded CLACK, an organization aimed at providing "a place to belong and tools" for high school students from impoverished families to "carve out their own paths in life."

## Bord member

Daiki Hirai  
(Chairman)

Contributed in Atschool(NPO) for children who live in poverty for two years from April 2016. Founded CLACK in June 2018.

# Business Scale and Staff

## Business Scale

## Staff

Full-time	6 people	Volunteer	60 people
Part-time	18 people		

## One of staff

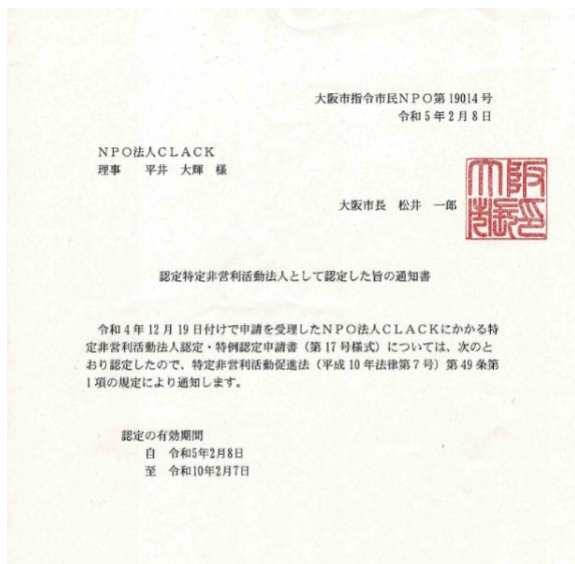

### Satoru Morikawa(Content Manager)

He worked for four years as the person in charge of developing programming education materials at DMM WEB CAMP, one of the largest programming schools in Japan, while employed by Infrastructure Co., Ltd. Starting in January 2022, he began working for CLACK as the person in charge of education material development and instructor training.

# Certified NPO Corporation and Media

## Certified NPO Corporation

Deemed to have a high public interest, CLACK has been recognized as a "Certified NPO Corporation" by the city of Osaka. A Certified NPO Corporation in Japan refers to a non-profit organization that has been acknowledged by the national or local government for its particularly high social contribution. Certified NPO Corporations are characterized by receiving preferential tax treatment if they meet certain requirements.

## Media

Since the start of our activities, we have been featured in various newspapers and web media. Specifically, we have been covered in Mainichi Shimbun, Yomiuri Shimbun, Asahi Shimbun, Sankei Shimbun, Nihon Keizai Shimbun, Osaka Nichinichi Shimbun, and Yahoo! News, among others.

## Collaboration with high schools (example in Osaka)

We collaborate with various high schools, including industrial high schools, commercial high schools, and empowerment schools, to reach out to disadvantaged high school students and provide them with information.

The number of high schools we are collaborating with

**Over 40**

Partial list of high schools we collaborate with

Industrial High Schools:

- Toyonaka Technical High School
- Imamiya Technical High School
